

Fibre Microscope

PRODUCT INFORMATION

The MSS Hand Held Fibre Microscope is used for inspecting the fibre connector end face. Coaxial illumination (CL) series provides excellent detail of scratches and contamination through its high precision and quality components.

The 200x and 400x Fibre Microscope utilises a white light LED for both oblique illumination and coaxial illumination. Both utilise precision all-glass optics, integrated laser safety filters.

The microscope comes standard with ST/SC/FC adapter with optional LC and MTRJ adaptors available if required.
