

# IEC POWER CORD C20 PLUG TO C19 SOCKET

The IEC Power Cable with C19 and C20 connectors is commonly used in computer servers, rack-mount power distribution units and UPS power connections. The C19 is an outlet or socket whereas the C20 is a plug of the same mating pair format.

The cable is rated 16A, 250Va.c. and is well suited for heavy load equipment for their intended applications. Made with quality and RoHS compliant materials, the cable is available in convenient lengths of 2 and 5 meters. The black colour ensures that the cable blends in to the environment (in server racks, behind computer hardware and UPS).

## Features

- Cable: 1mm sqr
- C20 plug, C19 socket and cord: Black
- Supplied in a hang sell bag

## Technical Data

**Conformant Standards:** AS/NZS 60320, AS/NZS 4417

## Ordering Information
